Work & Family

Service Technician (m/f/d)

At GEORG, our goal is to provide our Service Technicians and Field Fitters with the best conditions for their worldwide construction site assignments. This includes the widest possible compatibility of professional and private or family interests.

Your tasks:

You ensure that our systems are installed and repaired on time and to a high standard of quality and ensure that our customers worldwide are highly satisfied.

- > Customer support by telephone as well as on site at the customer's plant
- > Accompanying repairs, inspections and maintenance of machines and systems of our production range
- > Self responsible execution of preliminary acceptance tests in Kreuztal and accompanying of acceptance tests on site at the customer's plant
- > Planning and implementation of customer training courses
- > Adjustment of the control software according to the SPS allocation plan

Apply now by e-mail:
zukunft@georg.com

Your profile:

You are the flexible specialist who gets our complex machines and systems up and running with a high degree of personal responsibility and precision and who inspires our worldwide customers with his solution-oriented approach.

- > Completed training as an industrial mechanic, ideally with an additional electrical engineering qualification, mechatronics or electronics technician and relevant professional experience.
- > Good knowledge of pneumatics, hydraulics and application technology

- > Good knowledge of SPS Siemens S 7 and Siemens drive technology desirable
- > Good command of English
- > Convincing, confident and customer-oriented appearance
- > High commitment, flexibility and mobility (willingness to travel at home and abroad)
