transformer lines

mit uns **technisch überlegen**

## Your benefits

### More profit

- > The line can run full speed 24/7
- > Low maintenance, high availability
- > Careful processing of valuable strip material

### Better quality

- > Low burr
- > Low camber
- > Accurate and tight wound slit coils

### GEORG protectionworld

- > 100 % support through our Life Cycle Quality Management

## Main technical data

### Material

- > CRGO & NGO steel strip to EURO DIN EN 10107

### Width of coil

- > 300 to 1,250 mm (trimmed)

### Max. weight of coil

- > 6 / 12 tons

### Material thickness

- > [0.18] 0.23 to 0.65 [1.0] mm

### Line speed

- > 0 to 140 [200] m/min

### Width of slit material

- > [25] 30 to 1,230 mm steplessly

### Shaft dia

- > 160 mm

### Cutter dia

- > 250 mm
