

Amorphous Lamination Line **GEORG precisioncut 230 amorph**

transformer lines

mit uns **technisch überlegen**

Your benefits

More profit

- > The line can run full speed 24/7
- > up to 30 feeds per minute (450 sheets per minute)
- > Low maintenance, high availability

Better quality

- > Careful processing of valuable strip material

GEORG protectionworld

- > 100 % support through our Life Cycle Quality Management

Main technical data

Material

- > Amorphous

Strip width

- > 140 to 230 mm

Sheet length

- > 500 to 3,300 mm

Max stack weight

- > 400 kg

Material thickness

- > 3 x 5 ply x 0.023 mm
= 0.345 mm

Decoilers x 3

- > 800 kg max coil weight

Output

- > Up to 30 feeds per min
(450 sheets per min)
